# POSITIVE IMPACT OF ICT ON HUMAN RELATIONSHIP

Pros of ICT :

Through the use of social networking portals such as facebook, friends and families can communicate easily with one another. It has become a regular channel for social interaction. Communication technology tools like mail, text message speed up the sending of information within and outside of the organization.

FUN ZONE

The science of today is the technology of tomorrow.
Edward Teller

With the help of these social networking portals people can exchange photos opinion and thoughts with each other consequently improving interpersonal relationships. These features results in social cohesion and improvement in human relation. improves in human bonds.
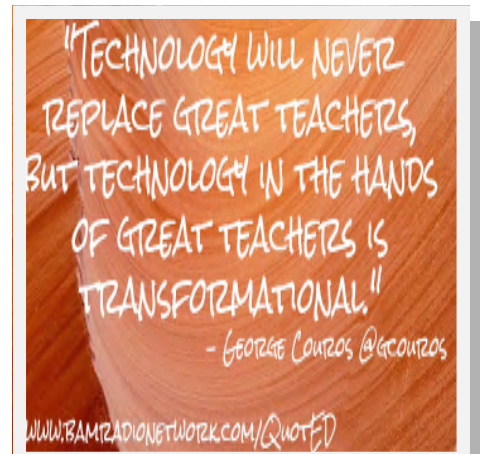

NEGATIVE IMPACT OF ICT ON HUMAN RELATIONSHIP

Cons of ICT :

Privacy or security is a major issue on ICT. ICT can also effect social relation negatively overshadowing it's benefits. People becoming reluctant to interact with one another in reality and spending most of their time on internet leads to social isolation.

Since information has been centralized in one data base; it is exposed to people therefore it can be misused.

Poor substitute or face to communication .Since people are using machine to communicate, they get less time to talk to each other and know each other better. This has resulted in broken relationships.

If an organization deploys a new communication technology system, they will have to pay extra fee to train employees in the organization effectively.

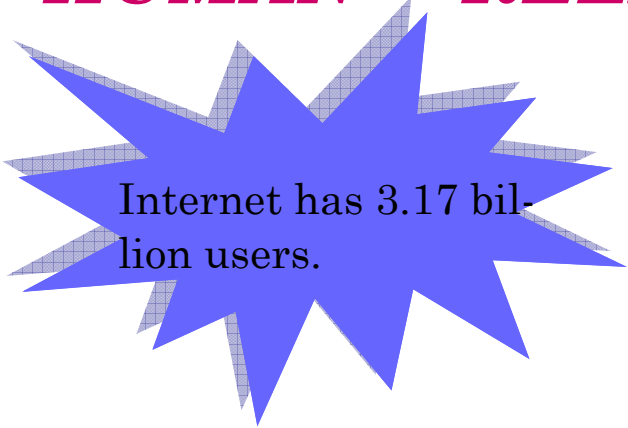

DID U KNOW ?

FACTS ABOUT ICT IN HUMAN   RELATIONSHIP

Internet has 3.17 billion users.

FOOD FOR THOUGHT

ICT is a double-edged tool that can either promote social cohesion or creates ad diction problem. The effects of ICT on the society are influ enced by the way people use it. Only when used wisely ICT brings benefits leading to a better society.

LIFE BEFORE THE COMPUTER

- Memory was something that you lost with age
- An application was for employment
- A program was a TV show
- A cursor used profanity

- A keyboard was a piano!
- A web was a spider's home
- A virus was the flu!
- A CD was a bank account

- A hard drive was a long trip on the road
- A mouse pad was where a mouse lived
- And if you had a 3 1/2 inch floppy
... you just hoped nobody found out!

Evolution of Memory Storage
