EDITORIAL

This month we celebrated and appreciated the important role played by teachers in our lives. The present experience of virtual classrooms and online teaching also highlighted the pivotal role of the teacher in the lives of students. Technology makes the content and the materials easy to disseminate yet the teacher plays the crucial role of bringing it all together in a meaningful way to the learner. As observed by Bill Gates, technology is just a tool, in terms of getting the kids to work together and motivating them, the teacher is the most important. Indeed teachers do not just impact learning they impact lives, as the teacher shapes the students minds, nurtures their talents and abilities and instills values that set them on the path to being good human beings.

POSITIVE VIBES

Hi Sir/Madam

I had a broken relationship. Now I have to work with him? How can I avoid it?

Yes, working with your ex definitely would be an awkward situation. It may create a daunting and a messy situation. Breaking up won't be a pleasant experience to anybody in whichever reasons it happens for. However, one can navigate oneself from these situations and can establish a civil relationship too.

- List out your priorities
- Respect your priorities and focus on your goals
- Pursue your Hobbies which will keep your emotional baggage away
- Workout with counsellor
- Communicate with your Ex and don't try to avoid or run away.
- Treat him/her as your colleague and establish a professional relationship

Not just changes in TET and BEd courses, NEP also suggests policies for teachers who have already been hired including mandatory courses, setting up of national professional standards, no transfer policy and digital management of hiring and vacancies in schools across the country.

The second speaker, **Dr. Asawari Bhawe**, Dean-Faculty of Humanities & Social Sciences, Head-School of Education & Research as well as PhD Chief Coordinator, Research Cell, MIT Art, Design & Technology University, Pune, spoke on how NEP 2020 will transform higher education. SO THIS IS LOVE?

Beyond what feels Good.....

“ Love is patient, love is kind. It does not envy, it does not boast, it is not proud. It does not dishonour others, it is not self-seeking, it is not easily angered, it keeps no record of wrongs. Love does not delight in evil but rejoices with the truth. It always protects, always trusts, always hopes,always perseveres. LOVE never FAILS.”- The HOLY BIBLE.

It was finally here-Anna’s wedding day, the day she had dreamed about and planned for months. The small, picturesque church was crowded with friends and family. Sunlight poured through the stained-glass windows, and gentle music was being played. Anna walked down the aisle towards David . Joy surged within her. This was the moment for which she had waited so long. He gently took her hand, and they turned towards the altar. But as the minister began to lead Anna and David through their vows, the unthinkable happened. A girl stood up in the middle of the congregation, walked quietly to the altar, and took David’s other hand. Another girl approached and stood next to the first, followed by another. Soon, a chain of six girls stood by him as he repeated his vows to Anna.

Anna felt her lip begin to quiver as tears welled up in her eyes. “Is this some kind of joke?” she whispered to David. “I’m.....I’m sorry, Anna”, he said ,staring at the floor. “Who are these girls, David? What is going on?” she gasped. “They’re girls from my past,” he answered sadly. “Anna, they don’t mean anything to me now.... But I’ve given part of my heart to each of them.”

“I thought your heart was mine,” she said. “It is, it is, He pleaded. “Everything that’s left is yours.” So this is love? You surely don’t want this nightmare to happen in your life.

Youths today have set it up as a trend to hit on someone and then date and once confused; give up on each other. Giving up on each other is done so casually that there is no meaning in a relationship .That’s not all, that’s the trendy love. Love is a strong feeling of affection. Your mother's inseparable love, can it be compared to anything? Her love is selfless. If such a love never fails, then why is it so that the other relationship fails most of the time. Love never fails.... in case it has, that means it was not love for sure. Youth of today, take time to understand that this trend/change will give you happiness only for a limited period with so many terms and conditions. And your heart will be divided into so many parts that in the end it will be just a small piece. Your love must be expressed, there are so many people in the world who need your love, your time , need you...orphans ,widows ,differently abled kids, physically challenged...

Let this be a burden for you to spread love, let your love be genuine. Let this genuine love be the trend. And thus you will be the change that you want to see.
