Principal's Message

DR. RENI FRANCIS

As we close the books on another fulfilling academic year, I am filled with pride and gratitude for the collective achievements of PCER Chembur of which the proud moment of our success and joy is being conferred the Autonomous Status by UGC.

Our students excelled academically, achieving outstanding results in curricular and co-curricular activities. Innovative teaching methods and a supportive learning environment have enabled our learners to reach new heights. Extracurricular activities flourished, with students showcasing their talents in sports, arts, and various competitions, further enriching their educational experience.

We also made significant strides in integrating technology into our classrooms, enhancing the learning experience and equipping our students with vital 21st-century skills. Our commitment to fostering a holistic education has been unwavering, with numerous initiatives aimed at promoting physical, emotional, and social well-being.

Reflecting on the year's achievements, I am particularly proud of the collaborative spirit that has defined our relentless efforts by the teaching and non-teaching staff. All have worked together seamlessly, creating a nurturing environment where every student can thrive to achieve success. This unity has been our strength, enabling us to overcome obstacles and celebrate successes together.

As we look forward to the coming year, I am confident that PCER, Chembur will continue to build on this year's successes. Thank you for your unwavering support and dedication. Let's continue to inspire, innovate, and achieve together.

1 May – Maharashtra Day

This day celebrates the birth of the state of Maharashtra in 1960. People remember the hard work and struggle of those who helped form the state. Cultural programs and flag-hoisting events are held across Maharashtra.

11 May – National Technology Day

This day marks the success of India's nuclear test in 1998. It celebrates the power of science and technology in building a strong nation. Schools and colleges often hold science fairs and talks.

15 May – International Day of Families

This day reminds us how important families are in our lives. It is a time to think about the love, care, and support we get from our family members. People also discuss ways to help families stay strong and happy.

18 May – International Museum Day

Museums are special places that keep our history and culture alive. This day tells us how museums help us learn and grow. Many museums hold special tours, games, or workshops on this day. Students attended virtual tours to commemorate this day.

22 May – International Day for Biological Diversity

This day is about protecting nature and all living things like plants, animals, and insects. It reminds us that every form of life is important. We must take care of our Earth so future generations can enjoy it too.
